

the place  
where your  
child wants  
to be!

Learn from a young age how to see the world around you differently. Build real world machines and inventions. Discover new possibilities... Learn mechanical skills that will last a lifetime! **Gr1-3**

# ROBOTICS

A Great Place to Imagine, Design and Explore

Learn how to build **robotics** models that **throw balls**, **drive** around or **navigate** through obstacle courses, **pick things up** or **move it around!**  
**Gr4-12**

# Coding

MADE EASY

Join the **amaKhodi** club and solve mazes, do treasure hunts and do binary coding, all at a level for the junior foundation: GrR - Gr2. Magnetic coding puzzles and stories (Vanderbijlpark and selected schools only)

PRESENTED BY:

co-ordination concentration design teamwork FUN etc.

## Trophy

It is not about being the winner, but how you work and grow that is important

## Computers

The medium of teaching to enable students to be literate in a language of the future. Coding is part of this language

## & Robotics

A practical way to learn basic engineering concepts by using robots as tools. Creativity, innovation and perseverance are the life skills behind robotics as subject

Imagine Engage Design Explore

Build a child – Build a robot
